

## **Chuck Thomsen**

CRS / CM Inc / 3D/International

- 1967 Coined the term "Fast Track" with CRS in NY.  
Also during the mid-1960s, Thomsen collaborated with George Heery to develop Construction Management concepts.
- 1971 Thomsen was appointed President and Chairman of CM Inc...division of CRS
- 1981 Thomsen was made President and CEO of CRS
- 1982 Thomsen joined 3D/International as President and led that company as President or Chairman for 24 years. 3D/I provided architecture, engineering and construction management services and opened offices throughout the U.S., Mid East, Asia and Europe. Notable projects were the Pentagon Renovation (including reconstruction after 9/11), the renovation of the Utah State Capitol and the development plan for the Thurgood Marshall office building on Capitol Hill.
- 2006 Parsons Corp. bought 3DI. "The two companies were similar in how we approached the market," Harrington said of 3D/International. "We thought the two companies would integrate very well." The sale gives 3D/International, whose clients include the Pentagon and the Los Angeles Unified School District, access to more resources, said Chuck Thomsen, who was 3D/International chairman. "Their core business is design and construction, like ours," said Thomsen, who will join the advisory board of Parsons Commercial Technology Group. "This will allow us to bring a lot more services to our existing clients."
